

改用

lettable operator

```
import { retry, catchError } from 'rxjs/operators';

const defaultData = { success: false, data: [] };

const getPostObservable = () =>
  Observable.ajax('url...')
    .pipe(
      retry(3),
      catchError(() => [defaultData])
    );
```

```
import {retry, catchError} from 'rxjs/operators';
```

```
const defaultData = { success: false, data: [] };
```

const getPostObservable == () =>

retry(3);

Observable.ajax('url');

.pipe()

catchError((
=>[defaultData])

const ErrReturn = defaultData =>

onErrorReturn(defaultData)
