```
const scroll0verNinetyPercent = Obs =>
```

```
.exhaustMap(() => fetch('url...'))
```

```
.fromEvent(scrollView, 'scroll');
```

```
// do something change view
```

```
Obs.map(event => event.target)
```

```
.let(scrollOverNinetyPercent)
```

```
const scroll$ = Observable
```

`.map(hasScrolled)`

```
.subscribe(res => {
```

```
.filter(p => p > 0.9);
```

scroll$

改用 let operator
